

Power, Harmony, & Discord

- “On Every Plane Harmony is Life and Discord is Death.” *Spiritual Astrology* – C. C. Zain

Astrology Has Permeated Our Language

- Disaster = Ill-starred
- Catastrophe = Against the Stars
- Influenza = Under astrological influences
- Mazel-tov = Under a good constellation
- Schlimazel = An ill-starred person

The Birth Chart is the Key

- The birth chart planets and their relative harmony and discord represent the evolutionary experiences in form (mineral to animal) with each of the 10 distinct types of expression
- Astrodynes are a helpful key to understanding how the energy of each of the planets has been “conditioned”
- The conditioning energy in a chart determines whether or not the individual naturally responds to the stimulus in a painful or pleasurable way

How to Rule the Stars

- “We do not prevent the various forces of nature, whether they be ocean currents, flowing streams, glaciating ice, or the ionizing cosmic ray, from acting. But through our knowledge we are learning to adapt ourselves rather successfully to these and other environmental forces. Nor can we prevent the planets from radiating the energies they most certainly do. But we can learn what those energies are and how they influence human life; and then take proper steps to utilize them so that they will work, not against us, but in a direction that will be to our advantage.”
- *Esoteric Psychology* – C. C. Zain

The Astrological Chart is:

- A map of our consciousness at the time of birth
- Our Spiritual DNA or “Blueprint” of our Soul
- Maps our dominant trends in thinking/consciousness
- Maps our trends in thinking that attract pleasurable experiences
- Maps our trends in thinking that attract painful experiences

Pleasure = Harmony

- The state or feeling of being pleased.
- Enjoyment or satisfaction derived from what is to one's liking; gratification; delight.
- Pleasure informs the organism that it is being successful

Pain = Discord

- Physical suffering or distress
- A distressing sensation in a particular part of the body
- Mental or emotional suffering or torment
- Pain informs the organism that it is not successful in adapting to its environment

Painful events are often our best teachers

- “This may be happening for a reason”
- “My illness was my wake-up call”

Conditioning Energy: Pleasure and Pain

- Our emotional reactions are acquired through our experiences with the environment
- Pleasure signals that we are being successful and contributes to feelings of happiness
- Pain signals that we are being unsuccessful and contributes to feelings of discontent and action towards creating more pleasurable conditions (Pain often moves us into action)

Choose Your Experiences

- “Just as tragedy and comedy can be written using the same letters so many varied events in this world can be realized by the same atoms as long as they take up different positions and describe different movements.”
- -Democritus (5th Century BC Greek philosopher)

Character is Destiny

- The astrological chart is a map of our character
- Change your character - Change your destiny
- “It is a mere platitude to say that character is destiny. But when it is realized that the character of an individual is the sum total of the thoughts which have been built, as stellar cells and stellar structures, into his astral body, the statement acquires dynamic significance. For each stellar cell and each organization of thought-cells has such intelligence as has been imparted to it, and is

capable of independent activities on the inner plane which are within the scope of that intelligence. It is these inner plane activities of the thought groups embraced within the astral body which bring to an individual the events of his life.”

- *Delineating the Horoscope* – C. C. Zain
- We draw events and experiences into our lives which mirror our states of consciousness (character)

The Planets Function as “Thought Cells” in our Consciousness

- Our thought cells operate in a 4th dimensional realm to impact our dominant trends of thinking and thus attract events and experiences of a specific nature
- The specific nature is determined by the planetary thought series
- Harmonious Thought Cells attract pleasurable experiences
- Discordant Thought Cells attract painful experiences

Supreme Happiness

- “Supreme happiness requires that all the various groups of desires find satisfactory expression. The person in whose life any one of the ten urges finds no outlet may be reasonably happy, but he has not attained to all the happiness possible to him. On the other hand, and this must not be overlooked, the mere expression of the different desires may lead neither to satisfaction nor happiness. For happiness to result the stronger desires must find satisfaction, and this satisfaction is not derived from mere expression, but from harmonious expression.”
- *Occultism Applied* - C. C. Zain

Inner/Outer Plane Interrelationship

- The Inner (Astral) Plane operates at a frequency above the speed of light, it interpenetrates and has a molding effect over the physical
- The Outer (Physical) Plane is in dense slow-moving substance that vibrates at a frequency below the speed of light. Events happen first on the Inner Plane before filtering down to the slower-moving Outer (Physical) Plane

Life is not Fair

- There is not an equal distribution of harmonious and discordant aspect in our charts
- Harmonious aspects ($\Delta * \sphericalangle$) = desires reconciled to one another
- Discordant aspects ($\circ^{\circ} \square \square \sphericalangle$) = un-reconciled desires
- Opposite desires or unfulfilled desires create stresses in the astral body that give rise to feelings of discontent
- Too much internal conflict of desires creates unhappiness, which if it becomes too severe causes mental breakdowns and leads to extreme discontentment or depression

Best House & Best Planet

- “Because in natal astrology the Best House in the chart indicates the department of life from which a given expenditure of effort brings the greatest advantages, and because in other branches of astrology it indicates the department from which most favors may be expected, it should always be ascertained. And as the Best Planet indicates the environmental associations that are most fortunate, it also should be noted. It is particularly significant in vocational selection, and in the selection of surroundings favorable to health. The nature of the planets, the signs they occupy, the volume of their energy, and the aspects they make all enter into this consideration. Commonly, Venus and Jupiter in a house are taken for the best influence. Venus adds $\frac{1}{4}$ harmony and Jupiter adds $\frac{1}{2}$ harmony. But in the last analysis, a precise point can be ascertained by calculating the harmodynes and discordynes. The House and the Planet carrying the most harmodynes will be considered the most fortunate in the chart.”
- *Horary Astrology* – C. C. Zain
- “Because in natal astrology the Worst House indicates the department of life that causes the most difficulty, and in other branches of astrology it indicates trouble, it also should be ascertained. And as the Worst Planet indicates the environmental associations that are most unfortunate, it is important to note it, so that these things may be avoided. Here, also, the nature of the planets, the signs they occupy, the volume of their energy, and the aspects they make must all be considered. Ordinarily, both Mars and Saturn are taken

as the worst influences because Mars adds $\frac{1}{4}$ discord and Saturn adds $\frac{1}{2}$ discord. But in the last analysis, the Worst House and the Worst Planet are those that carry the most discordynes. How to calculate the astrodynes, discordynes and harmodynes of an aspect, planet, house or sign is explained in Course XVI, Stellar Healing.”

Attracting or Repelling Wealth

- Your best wealth-attracting resource = your best (most harmonious) planet, sign, house
- Your greatest wealth repelling resource = your worst (most discordant) planet, sign, house
- Money is not easily gained through activities that astrologically correspond to discordant thoughts cells in one’s astral body
- To make money from those areas represented by discordant thought cells they must first be reconditioned
- It is easier and more profitable to devote energy to making money from activities where there are powerful and harmonious thought cells
- “But that which is here of interest to us is not the explanation of how the effect is produced, but that they are produced, and that people born with powerful thought-cells harmonious to wealth attract wealth, and those born with thought-cells discordant to wealth repel wealth.”
- *Occultism Applied* - C. C. Zain

The Manner in Which Money is Gained

- 1st - Capitalize on personality and appearance
- 2nd - Banking, finances, buying and selling
- 3rd - Transportation, communications, and writing
- 4th - Real-estate, rentals, building, architecture, and hotels
- 5th - Speculation, children, arts and entertainment
- 6th - Food service and preparation, health or medical
- 7th - Gain through meeting the public, agent, counselor
- 8th - Gifts, legacies, insurance and investments
- 9th - Teaching, lecturing, publishing or travel
- 10th - Business, management, politics

- 11th - Groups, friends, networking and event-planning
- 12th - Hospitals, retreats, prisons, zoos, sanctuaries, investigative work

Luck

- The force that positively shapes our circumstances, opportunities and events
- Good fortune
- Advantage
- Success
- Benefit
- Gain
- Blessings
- “Not only should the vocation be one that will permit the full expression of the temperament and natural abilities, but it should be one in which the environmental associations will tend to attract so-called good luck.”
- *Occultism Applied* – C. C. Zain

Where to Succeed

- “It is not uncommon for a person to fail in one locality and succeed in another. The sign occupied in the birth-chart by the best planet for money indicates the type of environment where success with money will be greatest. Thus also, the sign occupied by the planet most afflicting the money prospects is the environment where money making will be most difficult.”
- *Delineating the Horoscope* – C. C. Zain
- The Luck Factor indicates when natural aptitudes might succeed despite tremendous obstacles
- Luck (harmony) is determined by a well-aspected planet, regardless of its prominence
- Most harmonious planet (by astrodynes) attracts fortunate experiences
- Most harmonious planets, signs, and houses must be evaluated
- Vocational selection has as its objective uniting the individual’s most prominent abilities (as indicated by the chart of birth) with the most harmonious environment (as indicated by the best planet, sign or house in the chart)

How Should We Vote?

- “While the basic traits of character of a candidate can be ascertained from his chart of birth, such as whether he has courage,

initiative, organizing ability, intelligence, integrity, ability to get along with others, ability to pick good subordinates and get their loyal support, etc; much also depends upon conditioning. To handle a big executive job he should have had extensive experience as an administrator. No matter how intelligent an individual may be, to handle a complex machine, or a complex position requires training. And whether he will be unduly influence by party friends or special privilege is easier to determine from his record.”

- “Ability, integrity and inclination, however, are only half the qualifications for the head of an important enterprise. In addition, he should have what is commonly attributed to luck. This means that the president of the United States should not merely have progressed aspects that are favorable enough to get him elected, but that he should have harmonious progressed aspects during his term of office. The fortune of the nation usually closely coincides with the progressed aspects of its president.”
- Elbert Benjamine - *How We Should Vote*

Gauging Elections

- “In twenty-three years, with but one single exception, this class has picked the successful candidate in advance, not merely in national, but also in local elections..... In the important elections the predictions have been published months in advance.”
- *Mundane Astrology* - C.C. Zain
- “We have demonstrated that Jupiter rules the Republican party, Saturn the Democratic party (at least as it existed before the New Deal), Neptune rules the Socialists, Uranus the Communists, and Pluto the New Deal policies inaugurated by President Franklin D. Roosevelt.”
- *Mundane Astrology* - C.C. Zain
- “If on election-day there is a good aspect in the Jupiter Cycle... it indicates that the Republican Party will poll a heavier vote than expected. If on election-day there is a good aspect in the Saturn Cycle... it indicates the Democratic Party will poll a heavier vote than expected, many changing at the last minute to vote Democratic. But a discordant aspect in the Cycle Chart tends to

influence things adversely on the last days, or during the time the aspect is operative, for the party ruled by the Cycle planet.

- *Mundane Astrology* - C.C. Zain
- “The method followed has been to obtain the birth charts of the contending candidates and carefully weigh one chart against the other, special attention being given to the progressions in the chart of each at the time, and immediately following the election.”
- *Mundane Astrology* - C.C. Zain
- “Where, as sometimes happens, there is difficulty in deciding which chart with its progressions is most favorable toward acquiring the office, a horary chart is erected, and the question asked if John Doe (naming one of the candidates) will be elected. The chart is then judged according to the rules given in Chapter 6 (Serial Lesson 91), Course VIII, *Horary Astrology, for determining* the winner of a contest.”
- *Mundane Astrology* - C.C. Zain
