Because their chief expression relates to images of conditions more perfect they are called UTOPIAN thought-cells. Aspects to Neptune affect the life through the imagination, increased sensitiveness, and schemes. To the extent the thought-cells mapped by Neptune are active is the life influenced by wishful thinking, fantasy thinking, daydreaming, apprehension, idealistic visions, living in the imagination, or by thoughts of easy wealth or promotion.

- When Neptune is prominent in the birth chart it denotes one who has a lively imagination, and who possesses the power to get others interested in his projects. He is a good promoter and has decided dramatic talents, but dislikes both system and discipline, and seeks to avoid hard work. When prominent and afflicted, he fails to think things through, gives way to VAGUENESS, and instead of critically analyzing his ideas prefers to believe what he wishes to be true. The sooner he learns that the only valuable ideas are those which may be made practical the more fully will he be able to realize the IDEALISM for which he yearns.
