## How to See Aspects in the Chart

- Primary Requisite: Near the same degree?
- In the same sign? ....  $\sigma$
- In the same triplicity (fire,air,earth,water)? ....  $\triangle$
- In the same quality/quadruplicity (movable [cardinal], fixed, mutable, ? ....  $\square$  or  $\circ$
- Two signs away (compatibility, e.g. Taurus & Cancer)? ...  $\times$
- Adjacent signs ....  $\vee$
- None of the above ....  $\nabla$
- The two hard ones ....  $\angle$   $\square$

## Seven Steps in Judging – slightly modified

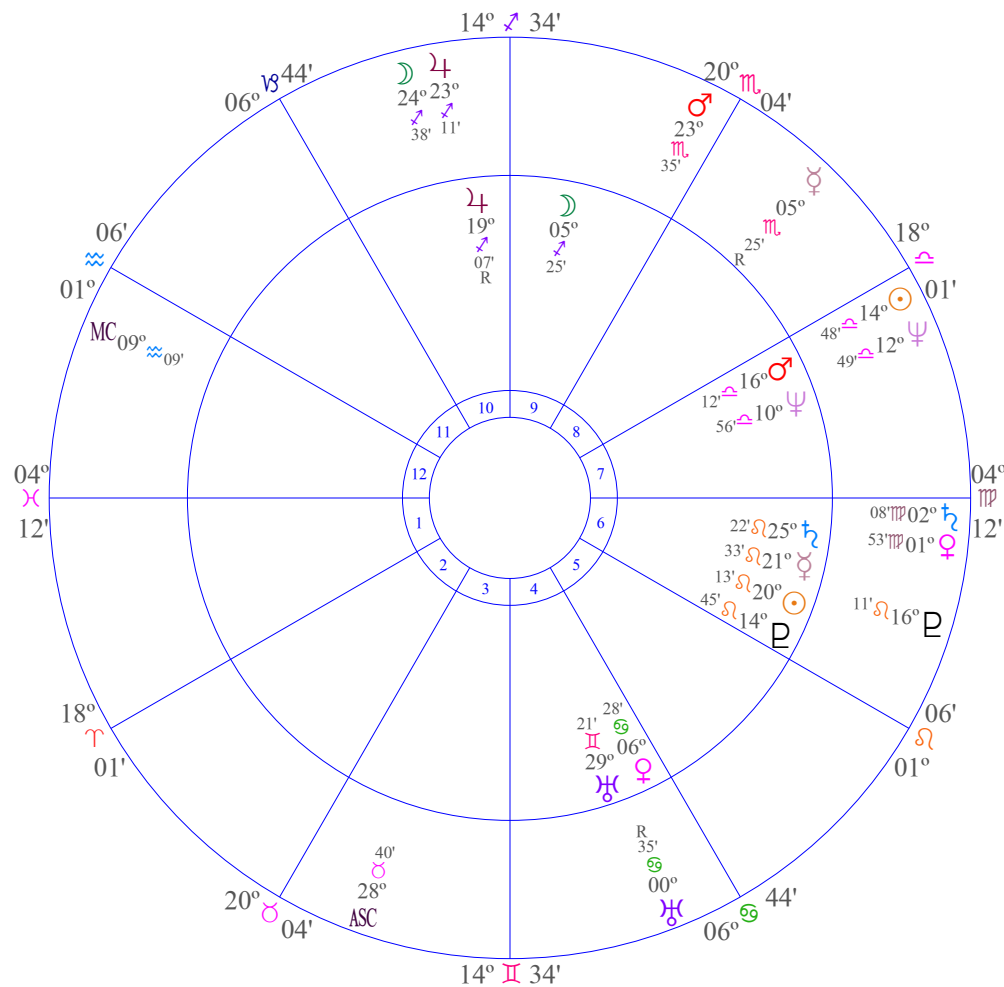

- Step 1 – Note the **Power** of the chart by distribution of planets among houses (accidental dignity); **planets East, West, elevated**, etc.
- Step 2 – Note **Quality** by distribution of planets among Quadruplicities (Movable, Fixed, Mutable) which denotes **Adaptability**.
- Step 3 – Note distribution among **Triplicties** which determines general **Temperament**.
- Step 4 – Note Departments of Life accentuated by planets making them more **Important**. Note the distribution among Personal-Companionship-Public and Life-Wealth-Association-Psychism.
- Step 5 – Note the nature of the planetary influence transmitted through each house and the **Chief Ruler** of that Department of Life – by noting the planets in a house or ruling the sign on the cusp of the house. For houses that have no planets, note the house the absent ruler actually occupies
- Step 6 – Note the **Prominence** of each planet and the number and nature of the aspects received by it. Also, note the **Decanates** occupied by Sun, Moon and Asc.
- Step 7 – Delineate the more important aspects of **Character** and **Fortune**: See next chart and Cs 10-1 Delineating the Horoscope.

# Step 1: Chart Power

Planets in Angles	4 or more	2-3	1 or none
Power	Powerful	Moderate	Weak

# Step 2: Adaptability

the degree of versatility and success in  
accommodating change

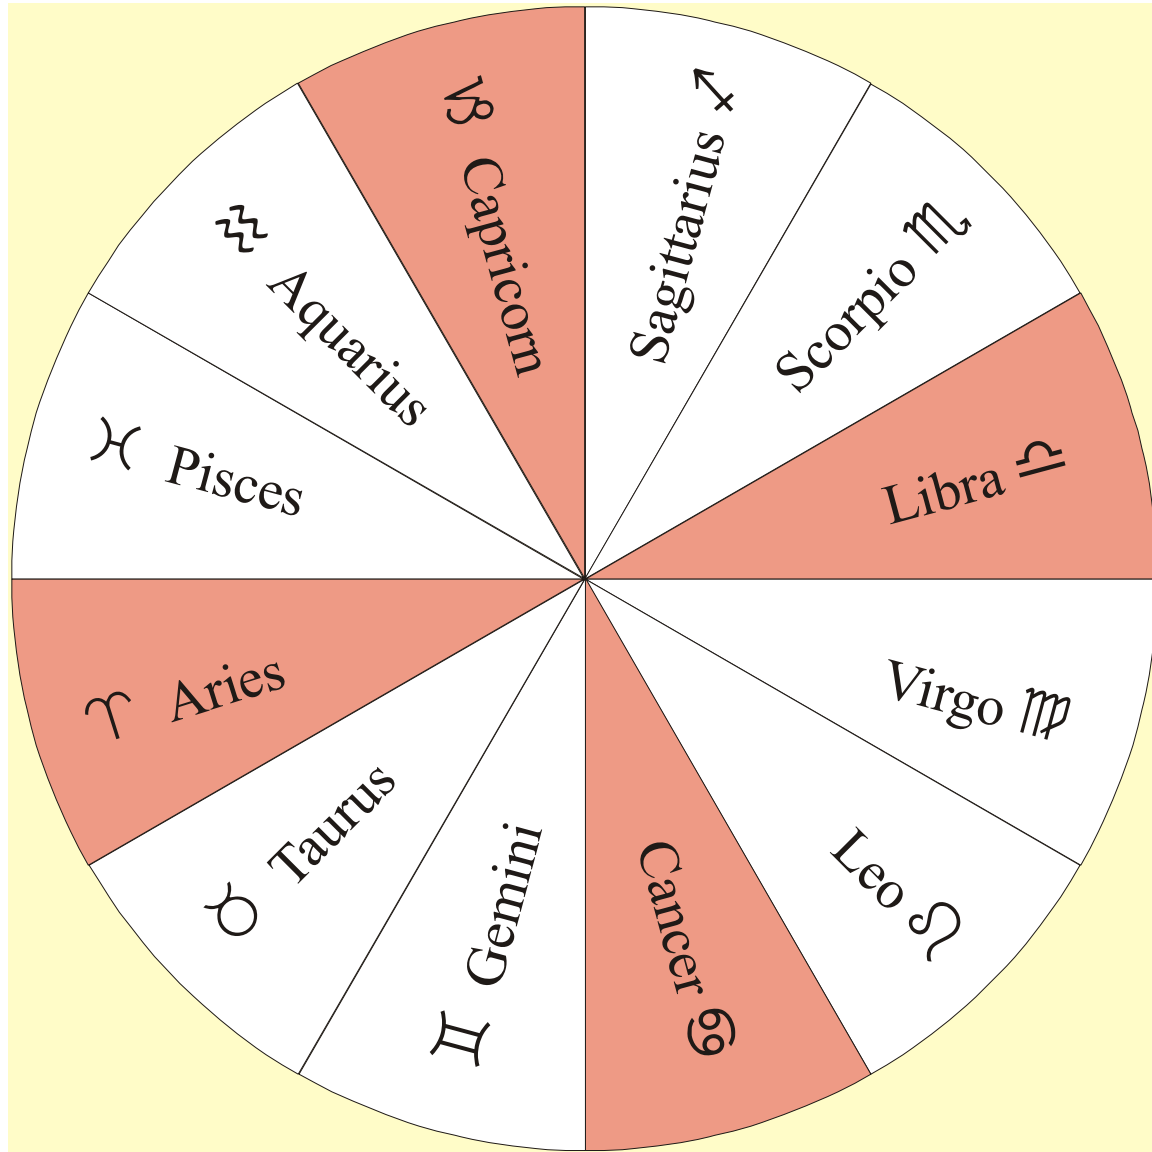

## Quadruplicity

<b>Moveable</b>	Aries, Cancer, Libra, Capricorn	Pioneers	Active, mold environment
<b>Mutable</b>	Gemini, Virgo, Sagittarius, Pisces	Developers	Adaptable, work with available resources
<b>Fixed</b>	Taurus, Leo, Scorpio, Aquarius	Perfecters	Determination, rigidity, attention to detail

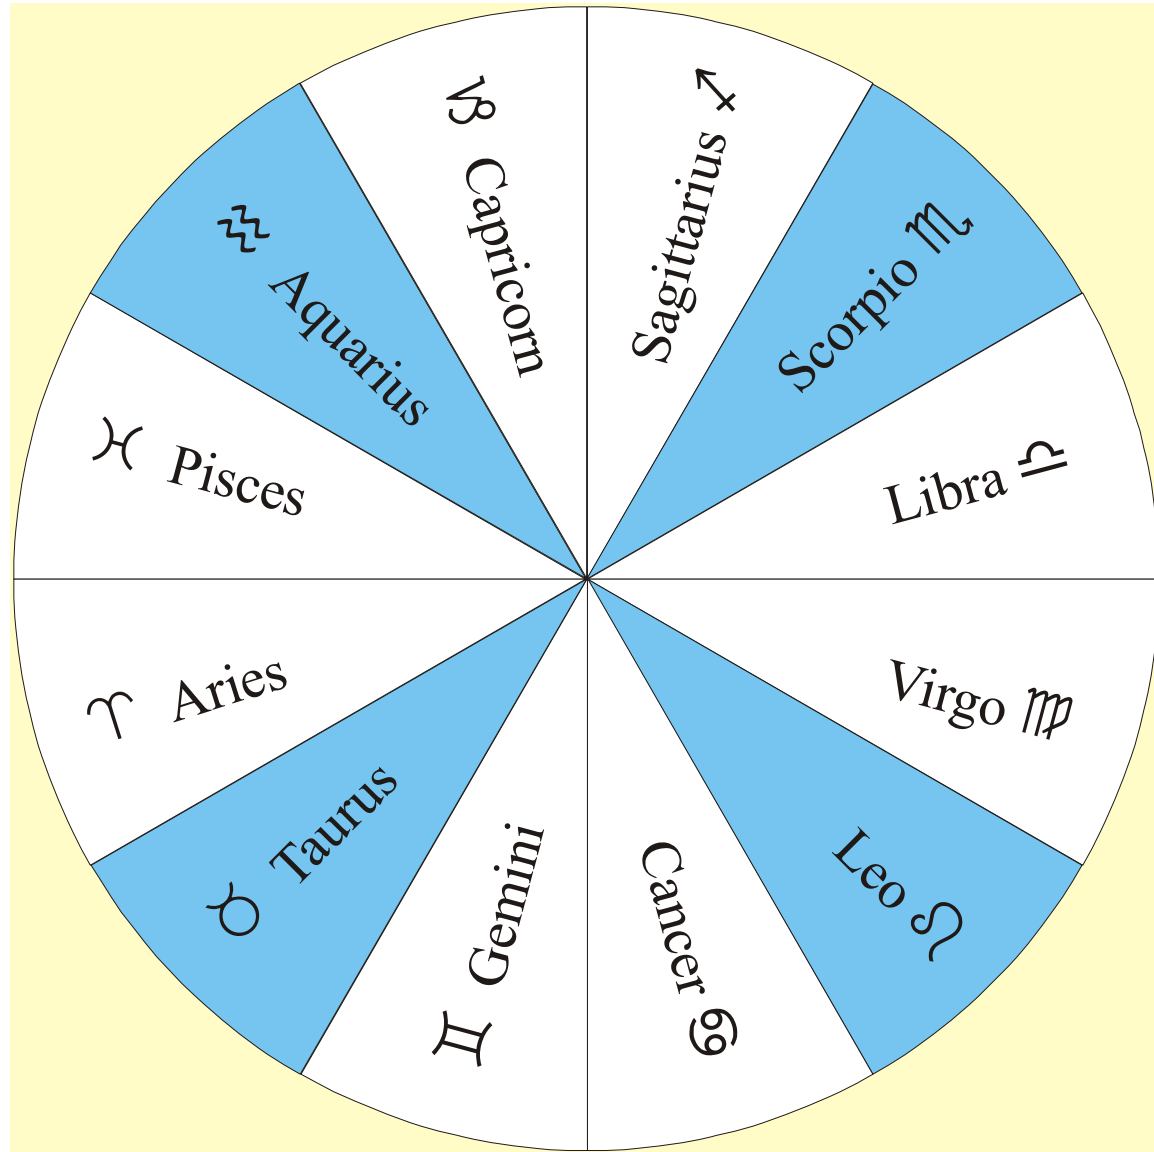

## Quadruplicity (CS II – Astrological Signatures – The Zodiac)

Quality	Nature
Movable	Active, energetic, and given to change; even as gas generates power and finds it easy to move in various directions little hindered by gravitation. They break the trails that others follow, and start the enterprises that others finish. The natives of Aries pioneer in daring enterprises and adventure. Cancer people pioneer in home building and in foods. Those born under Libra pioneer in literature, art, and social affairs; while those belonging to the sign Capricorn are pioneers in business and industry. The signs of the movable quality produce people who are PIONEERS.
Mutable	The mutable signs are a happy medium between the excessive activity of the movable signs and the stubborn resistance of the fixed signs. They seldom break trails, but follow on the heels of the pioneers. As liquid conforms to the object with which it is in contact, so mutable people are the most adaptable of all. The signs of the mutable quality produce people who seldom originate an enterprise. They are the DEVELOPERS.
Fixed	Strongly attached to their customary environment, their customary manner of doing things, and their customary methods of thought. They have great resistance to pressure of all kinds, strong endurance, plodding perseverance and the ability to give close attention to detail. They are not originators, and not enthusiastic developers; but when development has reached a high degree, they work out details that constitute improvements. The signs of the fixed quality produce people who are PERFECTERS.
