In-Depth Astrological Delineation

Learn to refine your techniques for astrological chart interpretation. Every week, for five weeks, we will offer in-depth analysis of the natal chart, astrodynes, and progressions of a historical figure or someone currently in the news. Your instructor, Christopher Gibson, will walk you through the steps that would be followed in a professional astrological consultation. This is an opportunity to gain greater interpretative skills and to build vocabulary associated with the planets, signs, houses, and aspects in a chart. Special attention will be given to learning how to operate the Horoscope ® designed by Paul Brewer. Other topics for discussion will be Essential Dignities, Astrodynes, and Hermetic Progressions.

This class is for the astrological student who is already familiar with the basic keywords for the planets, signs, houses, and aspects, and who has a rudimentary knowledge of how progressions work.

For students outside of Albuquerque, the class will be offered online live, and archived for later viewing.

**Suggested donation of \$12 per class
or \$50 for the five-week series.**
